International Journal of Fracture

CONTENTS OF VOLUME 76 (1996)

Vol. 76, No. 1, 1996

Optimization of the adhesive joint Iosipescu specimen for pure shear test	S. DING, I. ERDINC, F.-G. BUCHHOLZ and M. KUMOSA	1–20
Analytical solution for orthotropic composite plate containing a mode I crack along principle axis	C.D. LIU	21–38
Elastic-plastic stress-strain calculation in notched bodies subjected to non-proportional loading	M.N.K. SINGH, G. GLINKA and N. DUBEY	39–60
Asymptotic and finite element analyses of mode III dynamic crack growth at a ductile-brittle interface	K. RANJITH and R. NARASIMHAN	61–77
Analytical solution for mode I crack orthogonal to free surface	A.Y.T. LEUNG and R.K.L. SU	79–95

Vol. 76, No. 2, 1996

An energy method for calculating the stress intensities in orthotropic bimaterial fracture	P.G. CHARALAMBIDES and W. ZHANG	97–120
A stochastic nonlocal damage model	I. LAALAI and K. SAB	121–140
T-stress evaluations of mixed mode I/II fracture specimens and *T*-effects on mixed mode failure of aluminium	N. HALLBÄCK and N. JÖNSSON	141–168
A numerical mode I weight function for calculating stress intensity factors of three-dimensional cracked bodies	L. BANKS-SILLS and E. MAKEVET	169–191

Vol. 76, No. 3, 1996

Application of the weight function method to two-dimensional elastodynamic fracture mechanics	P.H. WEN, M.H. ALIABADI and D.P. ROOKE	193–206
Collinear periodic cracks in an anisotropic medium	HU YIANTAI and ZHAO XINGHUA	207–220
Nickel-alumina interfacial fracture toughness: experiments and analysis of residual stress effects	M.E. THURSTON and ALAN T. ZEHNDER	221–241
Analysis of newly-defined stress intensity factors for angular corners using singular integral equations of the body force method	N.-A. NODA, K. ODA and T. INOUE	243–261
The interaction between an interface crack and a microcrack under antiplane loading	X.D. WANG and S.A. MEGUID	263–277
Interaction between an interface crack and a parallel subinterface crack	L.-G. ZHAO and Y.-H. CHEN	279–291

Vol. 76, No. 4, 1996

Characterization of isochromatic fringe patterns for a dynamically propagating interface crack	R.P. SINGH and A. SHUKLA	293–310
Structural mechanics modeling of the impact of a double cantilever beam	J.F. DOYLE and T.N. FARRIS	311–326
Crack-resistance behavior as a consequence of self-similar fracture topologies	A. CARPINTERI and B. CHIAIA	327–340
The stress intensity factor for grooved DCB specimens loaded by splitting forces	G. STAM	341–354
A semi-infinite-crack model for determining mode I stress intensity factors using crack surface displacements	S.W. NG and K.J. LAU	355–371
Interaction of a main crack with ordered distributions of microcracks: a numerical technique by displacement discontinuity boundary elements	A. BRENCICH and A. CARPINTERI	373–389
Author index		391
Volume contents		393–394
